Products Page

Overview

The Products page displays a catalog of pricing plans in a responsive grid layout. Users can browse different product tiers, compare features, and select plans.

The screenshot shows a grid of three pricing plan cards:

- Premium Plan**: \$99.99 /month. Features: Unlimited users, Priority support, Custom integrations. [Select Plan](#)
- Starter Plan**: \$29.99 /month. Features: Up to 5 users, Email support, Basic integrations. [Select Plan](#)
- Enterprise Plan**: \$299.99 /month. Features: Unlimited everything, 24/7 support, SLA guarantee, On-premise option. [Select Plan](#)

Page Details

Name: Products Page

Path: /prototype/products

Description: Browse product catalog with pricing plans

Features

- Display products in responsive grid
- Show pricing with currency formatting
- Highlight popular products
- List product features
- Select plan action

Implementation

- **Component:** ProductsPage
- **File:** src/prototype/pages/ProductsPage.tsx
- **Status:** Implemented

Layout

The page uses a responsive grid layout that adapts to different screen sizes:

- **Mobile:** Single column layout
- **Tablet:** Two columns
- **Desktop:** Three columns

Each product is displayed using the Product Card component, which provides consistent styling and interaction patterns across all plans.
